Tourists Protest Wharf Conditions At Sidney

Rickety, Dangerous and Inadequate For The Traffic Say American Yachtsmen

The general delapidation and crowded conditions at the Sidney wharf have aroused a storm of protest by local men. On Sunday five American yachts, seeking to enter Canada at the Customs here, were unable to land and turned away. Others who managed to tie up precariously at the wharf which is described as being in a "dangerous condition," complained bitterly about the landing. They cleared at the customs and immediately left.

One yachtman, a member of the Bellingham Yacht Club, spoke of the difficult time he had in getting to the wharf to local merchants. Complaints have been lodged with the Sidney Businessmen's Association, the only organized body in the community, and an early meeting has been called to investigate conditions at the wharf.

Geo. Gray, vice-president of the organization stated this week that work on the wharf, long promised by the Federal government, had been delayed. "Conditions are very bad there, and something should be done," he said. J. G. Mitchell, head of the Wharf committee, said that while funds had been pigeonholed for the work the summer, the death of the head of the firm who successfully tendered on the work had held up the repairs which are sorely needed.

Only one float remains for yachts to moor to while obtaining their customs clearance. Only a few boats have room to tie to this float, which is in a very poor state of repair. "What is needed here is a breakwater," said Mr. Mitchell this week. Work has already been done on this project and its early completion will provide a safe and all-year-round harbour for the many American vessels who clear through this port.

Sidney has long been a favorite port of entry for hundreds of foreign yachts entering Canadian waters. Listed as the third largest port of entry for Vancouver Island it is the closest customs port to the favorite cruising waters of all small and large pleasure vessels, the Straits of Georgia and the Gulf Islands.

"If our visitors are complaining and being turned away by conditions here, it is high time the Federal Government made good its promise to encourage foreign travel here," said Mr. Mitchell.

HOLE IN ONE

Last week J. D. Halley, "Barnsbury," Salt Spring Island, made a hole in one while playing on Salt Spring Island golf course.

THE WEATHER

The following is the meteorological record for week ending July 21, furnished by Dominion Experimental Station:

Maximum temperature	82
Minimum temperature	51
Minimum on the grass	44
Rainfall (inches)	0.06
Sunshine (hours)	01.6

OUR WANDERING REPORTER ON FISH

The Fish Are Where You Find Them

Optimistic reports of the salmon run off Sidney appearing in The Review last week had been challenged by disappointed fishermen. Determined to get the "low-down" on conditions a Review reporter was assigned the task of seeking the truth on the subject. His report follows:

It was no good tracing scents . . . they were everywhere, so were fishheads and a generally smelly atmosphere. "It's like this wherever fishermen congregate," I was informed. I first approached Les Cunliffe, who by repute is a keen fisherman. He was surrounded by many fishing rods in his garage in Sidney, and he gave them continuous and longing looks as he served gas and oil to his customers. "Sure, they're biting," he said. "Right in Buzzin Bay, why Bob Colpitts caught a 19-pounder just last night (Monday) and Frank Lull nabbed a 20-lb. salmon the same evening." Well that was that. I then tied me to Cammie Cove . . . where reports to the effect that Owen Fowler, popular member of the V.I. Power Boat Squadron, had captured a large salmon and "20

Death Traced To Oysters At Nanaimo

The Health department of the City of Nanaimo has issued a warning against consumption of oysters picked off the shoreline within the vicinity of Nanaimo.

It is reported that a visitor to Nanaimo last month developed typhoid fever after her return home and subsequently died. All evidence pointed to contact of the disease in the Nanaimo vicinity.

Health reports for water and the oysters tested from that vicinity indicated they were so heavy with typhoid bacteria that they were not safe for human consumption.

Health authorities have issued no warning against local oysters, however.

\$12,698 TENDER FOR SIDNEY ROAD WORK

Only one tender was received for road surfacing, construction of curbs and gutters for Sidney streets by the provincial works department. Bids were opened on Tuesday. The only tender was that of the Victoria Paving Co., Ltd., which offered to do the work for \$12,698.

The tender called for work on 1,000 yards on several streets. The streets are now being readied for the surfacing. Heavy equipment is grading all avenues from First to Fifth and curbing, surfacing and gutters will be laid the full width of the streets to one block on each side of Beacon Avenue.

Improvements With Pomp and Ceremony

A new cement sidewalk will be just a lot of labor to some, but to F. F. Forneri, of Third Street, Sidney, the improvement becomes a joy forever.

Last week, the well-known water trustee laid the cornerstone for his new walk with fitting ceremony. In one corner a container was laid with the mastheads from leading newspapers (The Review was included, of course), letters, photographs of Mr. and Mrs. Forneri, and some other things. The job was then completed. The container was actually placed by W. B. Marchant, an old friend of Mr. Forneri.

Just to discourage those who might be intrigued with the coins, to the extent, perhaps, of digging up the sidewalk, Mr. Forneri made it quite plain today that only minor coins were enclosed, coppers and a five-cent piece, he said.

The job is now finished, and instead of it just being another chore, the whole thing was fun, said Mr. Forneri.

The Sidney Airport

This busy scene is enacted eight times each day when the regular C.P.A. and T.C.A. mainliners arrive and take-off for Vancouver. Recently announced plans for T.C.A. Seattle flights will augment this schedule. Trips are now taking place designed to familiarize pilots with the run. Situated one mile from the shopping centre of Sidney, the airport also serves Victoria, the Gulf Islands and the southern portion of Vancouver Island. Two ferries feed the busy airport, the Cy Peck Salt Spring Island Ferry, and the Mill Bay-Brentwood Ferry.

Latest Hen To Change Sex At Penticton

Latest of the freak hens to change their sex is that owned by Ben Lambert of Penticton. After laying an egg daily for almost a year, the bird developed a comb and wattles, and now crows every morning with the roosters.

Const. J. Gibault Member Of Winning Police Team

Outstanding two crack United States entries, a British Columbia Police team won top honors last week in an international rifle shoot held in Victoria.

Constable J. Gibault of the Sidney detachment of the Provincial Police was a member of the winning team.

PERHAPS CHARLIE WAS CONFUSED, TOO?

DID HE WANT TO FLY OR SAIL TO VICTORIA? . . . OR SWIM?

The question of where the Victoria Airport is to be is evidently influencing the thoughts of famous visitors to our shores, at least their published statements reflect most strangely conflicting opinions concerning this much-discussed question. Last Friday the sound and able Victoria Times told of the visit of Mr. and Mrs. Edgar Bergen to Victoria. The famous radio ventriloquist had travelled from California by his private plane, piloted by himself.

The Times story said: "Mr. and Mrs. Bergen flew from California to Seattle in their private plane, but did not fly here, partly because Mrs. Bergen wanted to make the trip on the water and partly because Mr. Bergen did not feel it was the wisest thing to make a trip across a large stretch of water in a single-engine plane."

The following morning the equally able and accurate Victoria Colonist had the following story:

"Had there been an airport closer to Victoria than Patricia Bay, Edgar Bergen, famous comedian, would have brought his private plane direct to this city . . . he expressed his disappointment regarding the lack of a close-in airport to J. B. Taylor, manager of the Victoria Flying Club."

Over 2,679 Inoculated Here During Past Year

Impressive Figures Show Precautions Taken Against Communicable Diseases

Air Cadets To Take Glider Courses Here

A glider training program for air cadets of British Columbia will start at Patricia Bay-Sidney Airport on August 1. Three gliders will be available for the courses, they are two single-passenger Kirby Kadets and a two-passenger Schweizer glider. The gliders are now at the local airport.

Two-way radio communication will be used, and instructors will be J. B. (Jack) Taylor and John Watt.

Reporting to the School Board on work done throughout the year, Public Health Nurse Marion A. Bellis stated in her report that the year 1945-46 has been free of any large scale epidemics. Three isolated cases of scarlet fever, six cases of mumps, one of chicken pox and a few of rubella (German-measles) were reported during the year. The outbreak of smallpox in the State of Washington in March and April pointed the necessity for watchfulness and the need for continued immunization of the public against communicable diseases. Approximately 1,079 people were vaccinated in this district at the time of the outbreak.

In addition over 1,600 inoculations were given during the year. 229 children were protected against diphtheria, 89 were given inoculations for whooping cough, 131 for scarlet fever, 167 inoculations against typhoid and tetanus.

A total of 957 visits were made by the public health nurse to homes in the district since September, 1945. These visits included pre-natal and post-natal visits, infant, pre-school and school visits as well as tuberculosis visits.

Infant and pre-school clinics were held every week throughout the year with a total attendance of 895. When the Hostess House closed in April, clinics were held during May and June in the basement of the United Church. There has been a reduction in the attendance at the clinics in the past few months due to the reduction of air force personnel. Twenty-six attended the last clinic in June. Now that the Hostess House has been purchased by the School Board, Sidney clinics will be held there in the future.

In December a chest X-ray clinic was held in the High School and 150 adults were X-rayed. This number included the High School Grade XII who will be leaving this summer.

Three public health nursing students were given their rural field work in Sidney over a period of two months.

During the Easter holidays the public health nurse attended the Public Health Institute in Victoria.

LOCAL AIRPORT PLANE LANDING RULES STATED

In an announcement made this week, G. A. Yardley, collector of customs, stated that private aircraft may now be flown across the border into B.C. and land at any customs airport or airport of entry, and may remain three months duty free. Such aircraft may only enter for health or pleasure purposes, it is stated.

Regulations require that planes from any foreign country must make application with local customs officials, giving proposed time and place of arrival.

On departure, the permit must be surrendered to customs officers and the aircraft will then be reported outward and clearance granted.

The regulations have been in effect for some time and many travel-wise aeronauts have landed at the local airport and have been cleared by local customs officials.

TO RAISE SUFFOLK SHEEP

J. M. Taylor, Corner Park, Towner Park Road, who recently purchased a ram and three ewes of imported registered Suffolk stock at the Calgary Livestock Show, plans to raise the breed.

RESPONSE MAGNIFICENT

Appeal To Save Hay Crop Brings Instant Response

The appeal for aid to save the hay crop published last week in The Review brought immediate results, said Miss G. E. Moses today. "Men have answered the call from all parts of the district," she said. "Bus drivers, carpenters, all trades seem to be represented, and some come from as far as Victoria."

Farmers who need assistance are asked to telephone Miss Moses where a list of those willing to work is available. Already many men have been placed and a number of men are available for those who need help in getting in the hay crop.

Maintenance Work Planned For District Schools By Board

Firemen Challenge "Tired Old Men" To Return Game Thurs.

Promising that the gloves will be off in the return game, Sidney Firemen, who suffered a humiliating defeat at the hands of a pick-up team of Sidney Merchants last week, have challenged the Merchants for a return game Thursday evening.

"We're not going to nurse them along this time," said a spokesman for the stalwart Firemen today. "They will have to face a team meaning business this time."

Merchants, who haven't played football for many years, jubilant at their win last week, have "gashed" Firemen unmercifully. "This return will be a pushover," said Les Gibbons, Merchants' third baseman. "Our opponents may answer a fire quickly enough, but they can't stop a softball for sour apples."

A collection will be taken for the Girls' Football team.

A full report on the condition of district schools from principals and other officials was received by the School Board last week. Work planned for the maintenance of the buildings was outlined and will be completed during the summer vacation.

Much work has been planned for all schools, painting, building of needed cupboards, repairs to furnaces and the upkeep of playing fields, etc.

The largest jobs will be the placing and conditioning of Army huts at Sidney, Mount Newton High school, West Saanich school and Deep Cove school.

In addition to the routine work of upkeep all schools will be conditioned for winter by the addition of weather stripping where advised and the installation of registers and other heating aids in classrooms.

Army Hut In Position At Mt. Newton High

The first of the Army huts purchased by the School Board for temporary class rooms was moved into position last week by Gardner & Levar. The building, which measures 46 x 24 feet, is one of several which the Board bought to relieve the crowded situation in local schools.

It was moved 12 miles from the Mills Road Camp site to Mt. Newton High school.

YOUR \$10 BILL I BELIEVE?

It was just an old crumpled up ten dollar bill, and F. F. Forneri had it tucked away in the pocket of his overalls as he worked about his garden on Third Street. He had occasion to walk to the shopping centre during the day and . . . the bill was gone, lost.

He mentioned the fact to H. Kennedy, local postmaster, and, thinking it a vain hope, suggested that if anyone came along with a ten dollar bill in their hand to tell them he had lost one. He then sorrowfully walked home.

A day later Mrs. Loud called. "Your \$10 bill I believe," she said, as she handed the astonished citizen the bill. "My conscience just wouldn't let me keep it."

Walks On Broken Ankle For Five Days, Thought Sprained

Suffering a fall at his home, East Saanich Road, on Saturday, Wm. Douglas, secretary of the local Canadian Legion, thought that he had sprained his ankle. For five days he hobbled about taking the ordinary care for a sprain. On Wednesday, however, the ankle had swollen badly and medical advice was obtained. The ankle was found to be broken and a minor operation was required before the broken bones could be set. Mr. Douglas is now recuperating with his ankle in a cast.

COURTENAY MAY ADOPT MONDAY CLOSING ALL DAY

The Retail Merchants' committee of the Courtenay Board of Trade have announced that, following a canvass of the stores, it is possible that business places will close all day on Monday instead of the half-day on Wednesday as now obtains.

This will enable the stores to remain open until 9:30 on Saturday evening.

Move 25 Buildings, Lots More Ready For The Road

RESIDENTS MOURN LOSS OF TREES

With many a heart-tug, local residents saw shade trees in full leaf torn ruthlessly from their sites at the Provincial department of public works continued with their work of grading and widening Sidney streets this week.

Saddened by their loss, residents were bolstered by the knowledge that the work will give much needed drainage to the community. Streets are being graded to the full width and curbs and drainage placed. In some cases the trees have taken the place of awnings for stores. Hundreds of families of birds which have nested in the trees, and which have almost become pets of nearby shopkeepers, will be missed. In every instance, however, the spirit of progress has overcome the feeling of nostalgia which has gripped citizens when first they learned that the trees must go.

A planned planting will doubtless be undertaken when the new work is completed.

WHEN THE FRUITS RIPEN

Enjoy the season's luscious fruits in their cooling, fresh form. Or can them for next winter's desserts. Let the flour you might have used for pies and puddings make more bread.

Heavy hauling isn't all fun! That is the general impression of Art Gardner and Chot Levar, who have gone into the heavy hauling business with a "bang." Commencing this spring with the construction of dual wheels mounted under heavy 45-foot timbers, the local firm of machinists and welders have moved more than 25 of the army huts at Mills Road and Wilson Road camps. Longest haul thus far has been the 12-mile trek to Mount Newton High school. "We haven't had any real grief so far," said Art Gardner as he reached for a piece of wood to touch.

Mr. Gardner supervises the moving jobs and it is he who is constantly guiding the load by walking in front, backwards. Quoted as to the comfort of this walking backwards, he replied that it was hot work. "It isn't necessary all the time," he said. "But we like to be sure of the clearance and many other details when the load is on the move."

Several buildings are to be moved to Victoria. Thus far most of the huts have been moved to Sidney and its outskirts, and the great majority of the more than 43 buildings will be utilized in the district.

DOMINION TEXTILE COMPANY LIMITED

"Cotton . . . the Master Fabric"

ESTIMATE BUMPER CROP FRUITS, 1946

A particularly bright outlook for fruit production in Canada this year is forecast by the first official estimate. Increases in production over the 1945 crops are expected for all fruits except grapes, which remain unchanged but are 31 per cent above the 10-year average (1935-44). The estimates for apples, pears, plums and prunes, peaches, apricots, strawberries, raspberries also all exceed the 10-year averages. Estimated production of the various crops for 1946 are as follows:

Apples—1946 estimate, 14,409,000 bushels, an increase of 89 per cent over the 1945 harvest of 7,583,000 bushels, and 3 per cent above the 10-year average of 14,005,000 bushels. All provinces are expecting substantially larger crops this year.

Pears—1946 estimate, 714,000 bushels, an increase of 19 per cent over the 600,000 bushels crop of 1945, and 10 per cent over the 10-year average of 651,000 bushels. Gains over last year are reported in Ontario and British Columbia, but the Nova Scotia crop estimated at 22,000 bushels is 42 per cent smaller than the 1945 crop of 38,000 bushels, but well above the 10-year average of 18,000 bushels.

Plums and Prunes—1946 estimate, 574,000 bushels, 18 per cent increase over the 1945 crop of 486,000 bushels. Increases are anticipated in Ontario and British Columbia, while Nova Scotia's crop estimated at 8,000 bushels is 1,000 bushels less than the 10-year average. Although the Ontario crop for 1946 estimated at 101,000 bushels is substantially greater than the 27,000 bushels harvested last year it is still well below the 10-year average of 121,000 bushels. British Columbia's crop estimated at 465,000 bushels is 3 per cent larger than the record harvest of 451,000 bushels last year, and bids to be 122 per cent above the 10-year average of 209,000 bushels.

Peaches—1946 estimate, 1,905,000 bushels, an increase of 1,566,000 bushels in 1945. Ontario's estimate of 1,236,000 is well above the 10-year average of 1,018,000 bushels and 36 per cent greater than the 1945 crop. The estimate for British Columbia (670,000 bushels) is 206 per cent above the 10-year average of 219,000 bushels.

Cherries—1946 estimate, 241,000 bushels, an increase of 2 per cent on the 1945 harvest of 237,000 bushels. It is the only crop in British Columbia that is not expected to exceed the 1945 harvest.

Apricots—grown commercially in B.C. only. 1946 estimate of 150,000 bushels is 72 per cent greater than the 1945 harvest and is expected to be the largest ever produced.

Strawberries—1946 estimate, 19,767,000 quarts, 18 per cent more than in 1945.

Raspberries—1946 estimate, 14,457,000 quarts, an increase of 15 per cent over 1945 crop.

Grapes—1946 estimate, 65,730,000 lb., practically the same as 1945 but still 31 per cent greater than the 10-year average of 50,350,000 lb. Ontario's production of 62,600,000 lb. is one per cent less than in 1945, but a 6 per cent increase offsets the decrease.

IT PAYS TO PLAY

Endorsing the old saying "all work and no play" health authorities in the Department of National Health and Welfare at Ottawa suggest that, in these days, it is not only a personal privilege but a national responsibility, for all able to do so to get some fun in life. By playing games, it is stressed, people of all ages develop self reliance as well as mental and physical health.

Coach Lines Supr.

G. C. PARROTT

Formerly traffic manager at Vancouver Island Coach Lines Ltd., G. C. Parrott has been appointed to the position of general superintendent of the company. It was announced last week by Harold Husband, general manager. He has been with the Coach Lines for the past 14 years and has been traffic manager for the past five years.

SKIT FEATURES KITCHEN SHOWER

In honor of Miss Betty Kingsbury, whose wedding to Capt. W. G. Stone will take place on Saturday, Mrs. Lois Hayes and the three bridesmaids, Misses Shirley and Bryde Wilson and Miss Norah Turner, entertained about 50 guests at a kitchen shower Saturday evening at Mr. and Mrs. N. W. Wilson's cottage, Ganges Harbour. The room was decorated with sweet peas, gypsophylla, and roses. Prior to the shower, several of the girl friends of the bride-elect were entertained at dinner.

A clever little skit on life in the Ganges telephone exchange, where the guest of honor was an operator for several years, was given by Mrs. Graham Shove. Mrs. Harry Bapty, Misses Denise Crofton and Miss Bryde Wilson. The gifts were then presented to the bride-elect.

Among those present were: Mr. and Mrs. D. K. Crofton, Mrs. A. B. Elliot, Mr. and Mrs. A. J. Eaton, Mrs. P. J. Guinevan, Mr. and Mrs. Henry Irwin, Mr. and Mrs. H. Johnson, Mr. and Mrs. Earle Lockwood, Mr. and Mrs. Fred Morris, Mrs. H. I. Petersen, Mr. and Mrs. H. Sjoquist, Mr. and Mrs. Jack C. Smith, Mr. and Mrs. George West, Mr. and Mrs. Adrian Wolfe-Milner, Miss Dulcie Crofton, Miss Peggy Frost, Miss Vivien Layard, Miss M. Malone, Miss Nonie Ryland, H. Bradley, R. W. Bradley, Ted Broadbent, Raymond Best, R. Cowan, Mrs. Neils Degnen, A. La Plante, Hugo Rayment, Capt. W. G. Stone, Eric Springfield, N. W. Wilson, Pat Walsh and Stan Had-den.

Sidney Girls Win; Upset Hopefuls

The long awaited victory for Sidney senior "B" section "A" girls team came on Monday evening when they defeated Wally Yeaman's Hopefuls in Victoria. This time it was the Sidney team which had the happy inning, it came in the seventh and last inning, with Sidney putting on a rally which earned them five runs. In the final stanza with two out hopefuls had two runners on base, only to have Sidney retire the next batter and end the game. Final score 12-7.

SHOWER FOR RECENT BRIDE

Saanichton, B.C. — Mrs. E. Oakes, entertained on Tuesday evening at her home at a miscellaneous shower in honor of Mrs. Douglas Beaumont, the former Molly Gabb who was married recently. Upon arrival, the guest of honor and her mother-in-law, Mrs. D. K. Beaumont, were presented with corsages of gardenias and carnations. The many lovely gifts were drawn into the room in a miniature boat. Later in the evening a sit-down supper was served by the hostess, assisted by her daughter, Miss Margaret Preece. The invited guests were: Mrs. D. K. Beaumont, Mrs. Bannerman, Mrs. O. Norman, Mrs. J. J. Young, Mrs. A. Gale, Mrs. L. Hafer, Mrs. J. E. Tanner, Mrs. J. H. Thompson, Mrs. R. V. Robinson, Mrs. K. C. Polyblank, Mrs. Allan, Mrs. K. E. Stanlake, Mrs. R. H. Byers, Misses C. Reeve, Lyn Robinson, Trudie Polyblank, M. Trapp, Aileen Book,

EAT LESS FOR HEALTH

Fortunately for Canadians, say national nutrition experts, they can safely cut down on some foods and still support the work of feeding the world's starving peoples. Whole wheat and Canada Approved breads are not only more nutritious, but are also more economical, according to officers of the Department of National Health and Welfare, Ottawa.

Barbara Beaumont and Margaret Preece.

TURN TO VEGETABLES

Canadians don't eat enough vegetables, according to food experts. Authorities of the Nutrition Division, Department of National Health and Welfare, Ottawa, advise the production and use of more vegetables, since this would not only be beneficial to health, but would release such staples as wheat to help feed those in lands less fortunately situated as regards food supply.

Individuality in Wedding Rings

Diamond-set WEDDING RINGS are priced from \$37.50 to \$250.00

Others of 14-kt. yellow gold or 18-kt. white gold from \$35.00 to \$55.00

From our unusually large collection of Wedding Rings you can select a style to meet any taste. Here you will find many exquisitely designed, diamond-set rings. If you prefer a more conservative ring, many plain and engraved styles are available.

SUNDAY SCHOOL and BIBLE CLASS
at 10.00 a.m.

EVENING GOSPEL SERVICE at 7.30

A warm welcome to all.

Daily Vacation Bible School will be conducted
July 29 to Aug. 9, with classes running from
9-12 a.m., Monday through Friday, for children
4 to 14 years. All parents interested are invited
to co-operate in sending their children.

Says Reddy Kilowatt:

**"I'm Hungry
for
Wire!"**

—the kind of wire that enables me to hop from the
electric power mains and across the street to go to work
for you in your home or factory.

Right now, "weatherproof" wire is as scarce as the pro-
verbial "hen's teeth" and I don't know when there will
be any more. I'm doing everything I can to get fresh
supplies.

So, I want to warn you that if you are planning any altera-
tions to the equipment in your home or factory, or if you
have a new house that is about ready to be hooked up,
give me all the warning you can about your plans and the
probable date you will require my services, and I'll do all
I can to accommodate you.

Makes Debut At Government House

Miss Sylvia Crofton, of Ganges, was one of the debutantes pre-
sented to Their Excellencies the Governor-General of Canada and
Viscountess Alexander at the Viceregal ball at Government House
last Thursday evening. Miss Crofton wore a white sheer gown with
floral design of pink roses, a double ruffle of sheer was round the
low neckline of the fitted bodice and the pink rose design was repeated
in her bouquet. Miss Crofton is shown above with her father, Lt.-Col.
Desmond Crofton. Prior to the ball Lt.-Col. and Mrs. Crofton and
Miss Sylvia Crofton were entertained at a dinner given by Lady Butler,
who has recently returned from England, in honor of Major and Mrs.
P. D. (Pat) Crofton, of Ganges.

Reasons Given For Leaving School Shown In Annual Report

In a comprehensive report to
the School Board, D. E. Brecken-
ridge, principal of the North
Saanich High School, quoted fig-
ures showing the holding power
of the school. Of the total 129
pupils enrolled at the High school
during the past year only nine
left school permanently. Reasons
given were as follows:

(1) Not getting along well at
school; (2) Indifference on the
part of the parents; and (3)
Courses not suitable (2 girls in
Grade X wanted commercial).

What the students who left
permanently are doing were
shown as follows:

Fishing with father, 1; working
with father, 2; telephone office,
1; married, 1; illness, 1; at home,
3.

Additional courses planned for
the coming term include Indus-
trial Art and Shop arithmetic.

Many extra curricula activities
of the school were listed designed
for the spiritual and physical de-
velopment of the student body.

Bible study, sports, social func-
tions, teen-age canteen, dramatics,
journalism, Red Cross and Cadet

work were all listed. Exhibitions
of school work and evening
classes were also reported on by
the principal.

World Fruit Crisis May Last For Years

The critical world food situa-
tion may last for four or five
years. Ample evidence exists to
show that, even with the average
or better than average yields for
the remainder of 1946 and 1947,
the world food situation will re-
main critical at least until the
harvests of 1947. Sir John Boyd
Orr, director general of food and
agricultural organization, has
stated that the world food situa-
tion is likely to remain critical in
one way or another for the next
four or five years, and has urged
some agreement on a plan for
international agricultural action
over that period of time.

The grain supply outlook for
the approaching season is any-
thing but reassuring, states the
Monthly Review of the wheat
situation. A preliminary esti-
mate of world food needs and
supplies for 1946-47, prepared by
the FAO, reveals that in the case
of wheat the import needs of the
deficit countries may be as large
as 40 million metric tons in order
to maintain a minimum subsist-
ence. On the other hand, as-
suming average weather condi-
tions, the amount available from
the "Big Four" exporters is not
likely to exceed 20 million tons.

Exports Are Vital

Sixty years ago, over half the
people of Canada were needed to
feed the remainder of the coun-
try. Today less than one-quarter
of the population is needed to
operate the farms, and Canada is
going into the post-war period
with a plant geared to produce
40 to 50 per cent above the pre-
war level. The export market is
vital. The ability to export,
states Frank Shefrin, economics
division, Dominion Department
of Agriculture, in the Agricul-
tural Institute Review, will be
influenced greatly by the na-
tional measures or controls ex-
ercised by various governments
to channel, impede, restrict, or
promote international trade.

Attend Ball At Government House

Mr. and Mrs. Garfield Weston
with their daughters, Miriam,
Barbara, Nancy, Wendy and
Gretchen and two nieces, Misses
Doreen and Virginia Robertson,
arrived on Thursday at The
Larch, home of Mr. and Mrs. L.
H. Nicholson, Shoal Harbour.
The Misses Weston attended the
Ball at Government House and
the party returned to Samuel Is-
land the following day.

Mr. Weston piloted the party
from Samuel Island in his Chris
Craft cruiser. A slight mishap
occurred off Moresby Island when
the steering gear became inop-
erative. Mr. Weston brought the
vessel in using the twin screw
propellers to steer the craft.

YOU'LL KNOW BY THE SMELL

10 Gallons Of Eau De Cologne "Lost"

Nanaimo police are searching
for a ten-gallon drum of Cologne
valued at \$200 which disappeared
from Vancouver Barge Trans-
portation Company's wharf at
Nanaimo last week. The Cologne
was billed for a hospital in Na-
naimo and was missed from the
wharf. There is a possibility that
the drum may have been picked
up by mistake by a transporta-
tion company serving island com-
munities.

FRUIT IN SUMMER

Now is the time to substitute
the fruit bowl for the cookie jar
in Canadian kitchens, say Ottawa
health authorities. An official
points out that not only will this
provide children with the food
elements so essential to health,
but, at the same time, will help to
make more flour available for the
hungry millions of the outer
world.

Commodity Prices

Premium for Spanish type
onions will be re-established from
July 16 to December 31, the
Prices Board states. The pre-
mium had been eliminated to cor-
rect abuses in respect to other
varieties imported as Spanish
type. However, some supplies of
domestic grown Spanish type will
be ready in some areas in late
July so the premium has been re-
established.

APRICOT PRICES

Maximum prices for apricots
will be at the same level as last
year the Wartime Prices and

Trade Board announces. The
order, effective July 15, covers
apricots produced in British Col-
umbia and sold in Canada and
imported apricots sold west of
Port Arthur. Last year's maxi-
mum shipper's price of \$1.65 per

18-pound case f.o.b. his shipping
point for B.C. grown apricots re-
mains. The same ceiling applies
to imported apricots sold west of
Port Arthur. Ceiling prices will
be effective from July 15 to
September 28.

DANGER!

FOREST FIRES AHEAD

FOREST fires are a hazard — a
deadly and costly hazard that
affects all of us here in British Col-
umbia. Each year, despite careful
vigilance on the part of our Forest
Rangers, hundreds of thousands of
dollars damage to our forests is
caused by downright carelessness!

Your own common sense will warn
you that incalculable damage can be
inflicted on heavy growth timber by
an improperly extinguished match,
cigarette or camp fire.

This is especially true during the
summer danger period. In the vicin-
ity of forest lands, be particularly
vigilant and exceptionally careful!

British Columbia Forest Service
DEPARTMENT OF LANDS AND FORESTS
PARLIAMENT BUILDINGS - VICTORIA, B.C.

Sequestered

A fig for the million I've wasted;
What matter the friends I have lost,
And tush! all the glory I've tasted
And into the cataracts tossed.
I still have twelve hundred per annum,
And I feel like a sage and a seer
When I and my little wife start in
To blow our twelve hundred a year.

There's a mist wisping in from the Islands;
There's a tang of the sea in the air;
The dark clouds hang low on the highlands,
And the rock in the offing is bare.
My shack by the shore is inviting
Tucked close in a sheltering nook,
With a bed and a bite for a caller,
A fireside, a pipe and a book.

There's a skiff on the shore with tackle,
And sometimes I land a cohort.
I strut with a cock pheasant's hackle
Adorning my battered chapeau.
I dream of old days in the Forum,
Of battles we fought in the street.
I live them again in a jorum,
Gone aye! but the memories are sweet.

—Nepenthe.

From the B.C. Capital

As a result of the signing of an agreement between the Provincial Government and Ottawa authorities during the past week, war veterans throughout the Dominion in future will be able to secure 160 acres of land free in British Columbia and a cash grant of \$2,320 with which to develop it, it was announced by the Honorable E. T. Kenney, minister of lands and forests.

One million acres of crown lands were set aside by British Columbia in 1942 for use by veterans. The signing of the agreement with Ottawa has finally made it possible for veterans to secure acreage for development. The free grant of land plus cash, is an alternative to the regular veterans' land settlement plan which provides for an amount of \$6,000 to purchase and develop farm land.

TO VISIT SURVEY PARTIES
J. M. Stewart, deputy minister of railways, has left for the Peace River District to inspect the work being carried out by survey parties in connection with the proposed extension of the Pacific Great Eastern Railway, it was

announced by Premier John Hart. Mr. Stewart will first go to Quesnel by way of the Pacific Great Eastern Railway to inspect what survey work has been done in Cottonwood Canyon. From Prince George, he will proceed to Fort St. John and on to East Pine, there to visit the various survey parties in the field.

LONDON APPOINTMENT

With a view to increasing trade with the United Kingdom, an industrial trade representative will be appointed to British Columbia House in London, it was announced by the Honorable L. H. Eyres, minister of trade and industry. The representative will be attached to and form part of the executive staff of the Agent-General.

Mr. R. S. O'Meara, trade commissioner, made a survey of the situation in the United Kingdom recently, and his report emphasized the need of some effective liaison in trade and industrial development matters. The representative's work will be specifically concerned with the interests of trade and industry in the province and will be co-ordin-

Gulf Islands Musings

By J. A. McDONALD

"I hold the unconquerable belief that science and peace will triumph over ignorance and war, that nations will come together not to destroy but to construct, and that the future belongs to those who accomplish most for suffering humanity."—Louis Pasteur.

NOT INTUITION BUT BRAINS

I am getting a little disgusted with all this talk of the intuition of women. If women are complimented by this they are very foolish, as the idea of intuition is that women have a sort of instinct, not equal, of course, to the instincts of the lower animals. I think it is time that someone told the truth. What women have is not instinct; it is brains. We men manufactured that intuition thing so we could feel superior.

DEFERRED PUNISHMENT

Many years ago there was a J.P. with a sense of humor in Texas, who also had an unerring instinct for getting his name in the papers. A few days after Judge Landis had sentenced the Standard Oil Company to a fine of \$29,000,000, a man charged with vagrancy came before him.

The man was found guilty and the Judge's sentence was: "I sentence you to serve twenty-nine million years, and release you on your own reconnaissance until Standard Oil pays its fine."

As everyone now knows, the man died before the sentence became operative; the S.O.C. never paid that fine.

Recently I have been wondering if that Texas case without its humor is not the precedent for the trial of the chief murderers in Germany. Are they going to die as the partial punishment of their crimes, or of old age?

If it was the case of an ordinary soldier who had shot his buddy, they'd be hanging Danny Dever in the morning. Britain wanted to try those criminals as a law case. Russia said they had already been tried by the people of the world. Shoot them. The U.S. had their own idea. This is it.

If the allies are to remain in Germany long enough to try all the war guilty in Germany it would take 500 years. In other words the technicalities mean that most of the criminals will never be tried. Another angle is that it is impossible to give full justice even to those who are now being tried, owing to the impossibility of shooting them more than once.

We are supposed to be creating a precedent for future wars. On the basis of months of trial for those who caused a war of aggression, it seems to me that we made a terrible mistake in shooting Axis soldiers these leaders sent to war without giving each of them a trial for six months to determine whether they were guilty, as of the war guilt of some of these there can be the gravest doubt—of the guilt of their leaders none.

sume, of course, that this applies only to American waters.

CANOE COVE LOG

By BARNACLE

Whew. What a week-end! There are no grumbings about the weather now, long may it last. Everyone who could get away was on the water and the floats were deserted by Sunday morning. There were many American visitors in, most of them strangers. We were delighted to welcome our old friends Mr. and Mrs. McKillop and family of Tacoma aboard their auxiliary yawl "Cho Cho San," which they bought a while ago from Mr. Genge, of Victoria. They have installed a new Gray 4-10 engine and she really looked beautiful in her distinctive varnish and a shining black hull. They left us for Nanaimo and Vancouver on Sunday morning but hope to call in on us on their return.

Work has been going on as usual, though there should be a law against it in this heat. The new shed which is to house the schooner to be built for Mr. Teller is beginning to take shape. Mr. Duke's speedboat is finished except for engine installation. She has been replanked and generally overhauled and painted and looks like a new boat. Work on Mr. R. Jackson's new schooner is almost completed.

A friend from Seattle gave us an odd definition of fishing this week-end: "An uninhabited body of water completely surrounded by bars in old clothes." We pro-

POWER PROJECTS

A small crew of the B.C. Power commission is now engaged on the building of engine foundations for a new power house at Vanderhoof, Premier Hart announced.

The field work survey for a projected power development on Cayoosh Creek, Lillooet has been completed. Plans and specifications and estimates are now being prepared. If it is indicated that the development will be an economical one, it will be the subject of a recommendation to the Lieutenant-Governor in Council, soon, the Premier stated.

Some additional field information is being obtained with respect to the proposed power development on Silver Creek at Hope.

Strikes affecting six plants having contracts with the B.C. Power commission on the Campbell River development have delayed delivery of materials and in consequence thereof, the work has been impeded somewhat.

VEGETABLE PLATES

Everybody knows today that no food is more important than vegetables. Nutritionists recommend at least one raw and two cooked vegetables every day. And with up-to-date information on cooking and serving vegetables this rule is not hard to follow. Now nearly everyone enjoys vegetables.

A vegetable plate may be a picture. That is the right sort of vegetable plate may be, but it takes some artistic ability as well as knowledge of cooking.

well as knowledge of cooking. No one would be tempted with a dinner of potatoes, white turnips and canned corn, or spinach, green beans and peas; but carrots, green beans, new potatoes and a few slices of raw tomato on lettuce attracts the eye as well as the palate.

If one wishes to depart from the all-vegetable idea, a poached egg may be added or a cheese or other piquant sauce may glamorize one of the vegetables.

For entertaining at luncheon a vegetable plate with hot rolls is always welcome whether it be of hot vegetables or a crisp cold salad.

The home economists of the Consumer section, Dominion Department of Agriculture, suggest three recipes for vegetable dishes.

SPINACH PUFF PIQUANT
2 lbs. fresh spinach OR
2 cups cooked spinach
1 teaspoon sugar
1/2 teaspoon salt
1/4 cup chopped green onion
1/4 teaspoon nutmeg
1/4 teaspoon pepper
1/4 teaspoon Worcestershire
sauce
2 tablespoons fat
1/4 cup milk
2 eggs, well-beaten

Wash spinach thoroughly, trim and cook for 10 minutes. Drain and chop very fine. Add the remaining ingredients and mix well. Turn into greased baking dish and cover. Set in a pan of water and oven poach in a moderately hot oven 375°F., for 45 minutes. Six servings.

1 egg
1 1/2 cups cooked macaroni
1 cup cheese, diced
1 tablespoon minced parsley
3 tablespoons melted fat
1 teaspoon minced onion
Pepper
1/2 teaspoon salt
Scald milk, add to bread. Add
well-beaten egg and other ingredi-
ents. Pour into a greased ring
mould. Set in a pan of hot water
and bake in a moderate oven
350°F., for 50 minutes. Turn
out on a hot platter and fill with
hot mixed vegetables, green
beans, onions and carrots or white
turnips and carrots or vegetable
marrow and baby beets. Six
servings.

Note: — For variety tomato,
cheese or cream sauce may be
used with the vegetables.

ENVIRONMENT IMPORTANT
Health and happiness are in-
fluenced by environment as well
as by germs. The Department
of National Health points out
that, while modern science pushes
forward with research and educa-
tion to the ultimate conquest of
disease, everyone must enlist in
the fight for better living condi-
tions. Squalor, says the experts,
like apathy, favors sickness.

Continued from Page One

A. Sansbury Gives
Timely Poultry
Pointers

reasons for providing pasture for
poultry. The first is to supply
nutrients as a supplement to the
ordinary ration, and the second
is to provide hygienic conditions
to control disease.
Systematic culling of the grow-
ing chick on the range should be
practiced to eliminate undesirable
birds. Those showing poor type,
deformity, or unthriftiness can
be disposed of to good advantage
for meat purposes. Culling
should also be practiced in the
laying house, removing all birds
that are poor producers. To do
this, study the head, and in this
way you can easily recognize a
good layer.

Sanitation must be watched at
all times, particularly with young
stock. One of the most common
errors is that of placing chicks
in improperly cleaned, brooder
houses, and pullets in unsanitary
laying houses. Steps should be
taken to see that all last year's
troubles are left behind before
the chicks arrive and before the
pullets are transferred to their
laying houses. Each house should
be given a thorough cleaning,
which means the removal of all
portable fixtures, and the spray-
ing of the interior of the house
and fixtures with a mixture con-
taining lime to whiten the house,
and a disinfectant which will kill
disease germs.

Paint the roosts and dropping
boards with a solution of 50 per
cent kerosene and 50 per cent
used crankcase oil, or with a
creosote solution, to keep red
mites under control. Nicotine
sulphate applied to the upper
side of roosts will rid the birds
of body lice. This can be put on
with a feather just before the
birds go to roost.

If you are planning to change
the poultry building, you might
consider placing the brooder
house near the house; it will
save many steps. The laying
house should be a place of com-
fort, and well insulated to pro-
tect the birds from cold. Watch
your ventilation; it is an impor-
tant point in egg production. You
can obtain satisfactory results by
adjusting the openings daily to
provide pure fresh air, free from
draughts. Lack of fresh air is
often responsible for loss of
vigour, and results in poor pro-
duction and high mortality. For
best results the temperature
should be kept between 45 and
50 degrees. Supplementary heat
supplied by Dutch ovens may be
necessary during the winter.

The use of artificial light to
increase the number of working
hours in the winter months to 12
will be found very beneficial in
your climate, but care must be
taken to avoid excessive periods
of lighting which often result in
abnormally high production fol-
lowed by a slump. Once started,
use of lights should be continued
without interruption. A good
plan to follow is to give the lay-
ers a 12-hour day; under this
plan the lights are turned on
about 2 hours in the evening, and
the number of lighted hours in-
creased to 12. When this method
is used, dimmers must be pro-
vided. One recommendation
would be to use a Coleman lan-
tern for lighting, and when the
12 hours were up, turn it out and
use a stable lantern for dimming.
About 10 minutes would be re-
quired to see that all birds had
gone to their roosts before put-
ting the lantern out.
No farmer can afford not to
keep records of eggs laid per

day, and a simple record of the
feed used and the cost should
also be kept. This will show you
at any time the exact financial
condition and whether or not your
chickens are paying you divi-
dends.

Hon G. Pearson Meets Salt Spring Coalition Committee

To Conduct Small Fruits Survey Here

A survey of the small fruit farming industry in British Columbia will be conducted this summer by the Department of Agricultural Economics at the University of British Columbia, it was announced this week by the president's office.

Of importance to all small fruit farmers, this project will take in a large number of farms in the Fraser Valley and on Vancouver Island.

Two fieldmen from the department, J. M. Gray and R. C. Blair, will spend the greater part of the summer and fall in the collection of data on farm costs, management practices and marketing. Study and analysis of their findings will be made in the Agricultural Economics laboratory at U.B.C. during the winter.

Object of the survey is the determination of the factors of success and the improvement of opportunities for all farmers engaged in the industry. Results will be published and circulated when the investigation has been completed.

Full co-operation is requested from all small fruit farmers in the Fraser Valley and on Vancouver Island. Without this co-operation, the project will not succeed. Any assistance given to the university fieldmen when they are in the district is, in effect, assistance to the fruit growers themselves.

Growers of small fruits are cordially invited to write or visit the Department of Agricultural Economics at the University of British Columbia, and arrangements will be made for the university fieldmen to call at their particular farm.

SHOAL HARBOUR CHURCH GROUP GARDEN PARTY

Sunny skies, beautiful surroundings, flowers and fruits of all kinds assisted in making the garden party, sponsored by the Shoal Harbour group of the United church in Sidney, a most successful affair.

Held at the home of Mrs. John, John's Road, the party was convened by Mrs. A. Gardner. An excellent attendance marked the occasion and stalls of merchandise were soon sold out. The occasion was the first social function to be attended here by the Rev. E. and Mrs. Fleming, who arrived last week from Ladysmith to take charge of the Sidney church.

Mrs. Fleming was greatly taken with the beauty of the surroundings and especially by the magnificent flowers and the abundance of fresh fruit. "We had a really wonderful time," she said.

Food eaten unnecessarily is food wasted. If every Canadian did without that "extra" slice of bread, enough wheat could be shipped abroad to bake more than half a million loaves of bread.

Hon. George Pearson, M.L.A., visited Salt Spring Island last week and met with the Coalition advisory committee at an informal meeting on Tuesday evening, at Ganges Inn. W. M. Mouat presided. Mr. Pearson reported on the policy to be followed by the Public Works department in the riding. In his talk Mr. Pearson touched upon the difficulties he had encountered as Minister of Labor and also on the hours of work and wage policy in relation to the public institutions in the province.

Difficulty in obtaining materials and supplies for needed road work had delayed plans for much work, the minister explained.

Prior to the meeting Mr. Pearson, as the Island's local representative, attended with the executive, a dinner at the Ganges Inn.

Mr. Pearson attended the Red Cross Fete at Vesuvius Bay and took the opportunity of taking two days well-earned rest at Ganges, where he was a guest at Harbour House.

ARMY TRUCKS FOR FARMERS

Last-minute information received by Secretary C. A. Hayden of the B.C. Federation of Agriculture from the Canadian Federation's representative, War Assets Corporation head office, Montreal, L. C. Roy, brought the welcome news to B.C. farmers that an extra tire would be provided with each of the 131 3-ton trucks and 29 3-ton trucks which will be distributed in this province.

The drawing for the 160 winners will take place in Vancouver July 31 and all application forms, filled in and accompanied by the necessary cheque, must be in the hands of J. W. Carmichael, the B.C. Federation of Agriculture's representative, Room 1425 Marine Building, Vancouver, by July 29.

It was only last week-end that word was received by Secretary Hayden from Mr. Roy that spare tires for the 3-ton trucks would be available. When it was first learned that spare tires would not be provided with any of the 160 vehicles, the B.C. Federation of Agriculture made vigorous protests to the Canadian Federation of Agriculture and to War Assets Corporation and its protest was eventually honored.

The trucks to be drawn will be:

29 (1942)	3-ton Ford trucks	\$848.18
2 (1940)	1 3-cwt. trucks	391.82
10 (1941)	1 3-cwt. trucks	435.43
119 (1942)	1 3-cwt. trucks	478.97

These prices include extra tires. If the farmers do not want tires then the reduction would be: \$68.56 for the 3-ton truck 37.42 for the 1940 3-ton truck

41.68 for the 1941 3-ton truck 46.85 for the 1942 3-ton truck

The 160 farmers whose names are drawn will also have to secure licenses and registration and the cost for the 3-ton trucks from Aug. 1 to Dec. 31 will be \$65.42, and for the 3-ton trucks for license and registration, \$47.92. Whether the license and registration will be secured through the War Assets Corporation's office, Vancouver, or through the government agent's office at Vernon has not yet been decided but Mr. Carmichael will inform the winners before the distribution is made from the Vernon military camp around Aug. 9 or 10.

Youthful Gunman Frequent Visitor To Sidney Say Police

John Birtelsen, 17-year-old youth who allegedly fired at and wounded a Victoria policeman on Friday, was observed at a restaurant in Sidney the evening before. Local police had noticed the lad and also the automobile. As they had not been advised of the theft of the car, their suspicions had not been aroused.

Birtelsen has been a frequent visitor to Sidney in recent months, say local police.

A Record in Farm Loans

LOANS
for Farm Equipment

LOANS
to Brush, Break and Clear Land

LOANS
for Building and Repairs

LOANS
for Farm Electrification

ONE OF OUR BRANCHES recently broke all records by making more loans under the Farm Improvement Loans Act than any other branch of any bank in Canada.

In ten months this single branch of the Royal Bank made 140 such loans to farmers scattered over an area of 3,200 square miles of country.

Over 55% were made to borrowers with total assets of less than \$5,000.

These loans were made for a wide variety of purposes—to brush, clear and break land—to purchase farm implements, to build dams and dugouts, to construct, add to and remodel buildings.

Would a Loan Help You?

If you could use a loan profitably to improve or expand your farming operations, or to make living more attractive on the farm, ask for a copy of our booklet "Farm Improvement Loans" at your nearest branch. It explains in detail the many attractive features of the Farm Improvement Loans Act, the many purposes for which such loans can be used and the easy methods of repayment. In addition, ordinary farm loans are, of course, still available at any branch.

The Workmen's Compensation Act

NOTICE TO EMPLOYERS

Effective July 1st, 1946, any employer engaged in the HOTEL, BEER PARLOUR or CATERING BUSINESS and having three or more employees (other than members of the family of the employer) employed at such work is deemed to be engaged in an industry under the Workmen's Compensation Act provided that:

Effective August 1st, 1946, any employer engaged in the business of LAND SURVEYING, AUCTIONEERING, or operation of a PRIVATE SCHOOL, PRIVATE CLUB, NURSING HOME, DENTAL LABORATORY, BARBER SHOP, HAIR DRESSING ESTABLISHMENT or BEAUTY PARLOUR, PHOTO TAKING or PHOTO PRINTING SHOP, STOCKYARD or BROADCASTING STATION (exclusive of players and artists) and having THREE OR MORE employees (other than members of the family of the employer) is deemed to be engaged in an industry under the WORKMEN'S COMPENSATION ACT.

Effective August 1st, 1946, any employer engaged in the business of operating PRIVATE HOSPITALS, JANITOR SERVICE, FLOOR POLISHING or FLOOR WAXING SERVICE, MOTION PICTURE HOUSES and other THEATRES, GOLF COURSES, BASEBALL PARKS, CEMETERIES, AMUSEMENT PARKS, HORSE RACE COURSES, ICE and ROLLER RINKS, BOWLING ALLEYS, BILLIARD PARLOURS, and PARK OPERATIONS (excluding in all cases players and artists) and having any workmen employed therein (other than members of the family of the employer) is deemed to be engaged in an industry under the WORKMEN'S COMPENSATION ACT.

Effective August 1st, 1946, all employees of SCHOOL BOARDS (including teachers), MUNICIPAL CORPORATIONS, MUNICIPAL LIBRARY BOARDS, PARKS BOARDS, MUNICIPAL CEMETERY BOARDS, MUNICIPAL WATER BOARDS, TOWN PLANNING BOARDS, or other MUNICIPAL bodies who are not already covered under the WORKMEN'S COMPENSATION ACT are deemed to be within the scope of the ACT.

Such employers are now required to register with the Board by submitting an estimate of their payroll expenditure from August 1st to December 31st, 1946. Forms for this purpose may be obtained from this office, together with such other information as may be required.

The Workmen's Compensation Act provides that an employer who has not registered with the Board may be held liable for the cost of an accident occurring prior to such registration, in addition to the regular assessments.

Address inquiries to:
THE WORKMEN'S COMPENSATION BOARD,

Government Plans Increased Trade With United Kingdom

Appoint Special Representative In London

The Honorable Leslie H. Eyres,
minister of trade and industry,
announced today that definite
plans are under way for extend-
ing the facilities of the Depart-
ment of Trade and Industry for
increased trade with the United
Kingdom.

On industrial and trade repre-
sentative will be appointed to
London. This representative will
be attached to and form part of
the executive staff of the Agent-
General, W. A. McAdam, C.M.G.
He will report directly to the
office of Trade Commissioner of
the Department of Trade and
Industry in Victoria.

R. S. O'Meara, trade commis-
sioner, made a survey of the situ-
ation in the United Kingdom re-
cently, his report emphasized the
need of some effective liaison in
trade and industrial development
matters.

The representative's work will
be specifically concerned with
the interests of trade and indus-
try in the province and will be
co-ordinated with the work of the
Federal Trade Commissioner
Service in London and through-
out the United Kingdom. His
directive will also be related to
the work of the Dominion Agri-
cultural representatives in Lon-
don and the Specialist Trade
commissioners under timber or
other headings.

The main objective of this new
development, says the minister,
is to place the necessary empha-
sis on the special problems of
British Columbia in the United
Kingdom by intimate government
assistance to exporters and im-
porters and to industrialists in
the province of British Columbia.

The program of the Depart-
ment of Trade and Industry in
relation to exports from the
United Kingdom is now being
studied with the view to work-
ing in the closest co-operation
with the United Kingdom Trade
Commissioner Service through
the medium of H. Oldham, His
Majesty's Trade Commissioner in
Vancouver.

During the past few weeks the
officials of the Department of
Trade and Industry have been
bringing this plan to a point of
decision in a series of meetings
with W. A. McAdam, agent-gen-
eral, who is in the province on
leave and fact-finding visit.

The minister took the oppor-
tunity of discussing the new
policy with Arthur E. Bryan who
was recently appointed Chief
Canadian Trade Commissioner in
the United Kingdom. Mr. Bryan
is spending a few days in British
Columbia before returning to his
post in London.

New Map For Salt Spring Published

A new map showing the auto-
mobile roads on Salt Spring Is-
land has just been published by
the businessmen and resorts of
the popular island. Cleverly de-
signed, the folder contains the
map and interesting facts con-
cerning the island. Distribution
has already been made to Boards
of Trade and publicity offices
through B.C. and western Can-
ada.

Mr. and Mrs. T. B. Foreman
have as their guests for the next
two weeks Mr. Foreman's brother
and sister-in-law, Mr. and Mrs.
Robert Foreman and their small
son, Kenneth.

J. J. Young made a business
trip to Seattle, Wash., over the
week-end.

In and AROUND TOWN

Miss Bessie Jackson and Miss
Lillian Nunn returned to their
homes in Sidney this week after
holidaying for a week at Parks-
ville.

Miss Beatrice Palmer and other
members of her family are spend-
ing a two-week vacation at
Hornby Island.

Mr. and Mrs. Stan Watling and
family are spending a short hol-
iday at Campbell River.

Mr. and Mrs. Cliff Pearson and
two children left on Tuesday af-
ternoon for a week in Vancouver.

Dr. and Mrs. Martin Hoehn,
of Los Angeles, California, were
week-end guests at the home of
Dr. Hoehn's brother, Dr. G. H.
Hoehn, Marine Drive. Dr. Mar-
tin Hoehn returned to Vancou-
ver this week where he will enter
St. Paul's hospital as an intern.

Mr. and Mrs. A. J. Myers and
two children were guests last
week at the home of Mr. and
Mrs. L. H. Nicholson, All Bay
Road. They returned to Van-
couver on Monday. Mr. Myers
is manager of the Park Steam-
ships Company.

Mr. and Mrs. F. Stuart, of
Brandon, were week-end visitors
at the home of Mr. and Mrs. J.
D. Muselow, The Orchard.

To Superintend Bank of Montreal Western Branches

N. GEORGE RUNIANS,

assistant superintendent of the
Bank of Montreal's western di-
vision, who has been appointed
superintendent of that division
with headquarters at the bank's
head office, in Montreal.

Successively attached to the
superintendents' departments at
Regina and Calgary for seven
years, and an inspector with head-
quarters in Winnipeg for four
years, Mr. Runians served for a
time as assistant manager of the
main office of the bank in Mexico
City. Following this he was, in
1934, transferred in this same
capacity to the bank's main of-
fice in Vancouver, and was later
attached to the western credit de-
partment of the bank in Mont-
real. After four years with this
department he was promoted to
the post of assistant superintend-
ent of the western division in
1943.

Mr. Runians, whose territory
covers the Prairie Provinces, Brit-
ish Columbia and the Yukon, will
work in conjunction with the
bank's resident superintendents
at Winnipeg, Calgary and Van-
couver.
